What is digital or crypto currency?

What is digital or cryptocurrency?
Cryptocurrency is a digital or virtual currency that is secured by cryptography, which makes it nearly impossible to counterfeit or double spend. Many crypto currencies are decentralized network based on blockchain technology. A defining feature of crypto currencies is that they are generally not issued by any Central authority.

What is blockchain?

Blockchain is a system of recording information in a way a that makes it difficult & impossible to change, hack or cheat the system.

Smart Contract

TRONLINE ecosystem provides automatic transactions in Smart Contract based Tron blockchain network . It performs automatic transaction of funds when the Smart Contract meet the predefined terms & conditions. The smart contract of TRONLINE will continue to work, till TRON blockchain network will exist and cannot be altered or deleted.
